

Pôdorys strechy - starý stav M=1:100

The drawing illustrates the existing roof structure. Key features include:

- Dimensions:** Overall width 19780mm, overall depth 6730mm.
- Structural Elements:** Annotations indicate the removal of hooks, downpipes, and gutters ('demontáž hákov, zvodov a žľabov'). A ventilation duct ('odvetranie kanalizácie') is shown with a circular symbol.
- Roof Modifications:** Notes specify cutting a groove in the roof ('vyrezanie ryhy v streche š=150mm') and removing ridge tiles ('demontáž lemoviek').
- Elevations:** Various height levels are marked, such as +6,779m, +7,050m, +7,300m, and +7,080m.
- Section Lines:** Section lines A-A and B-B are indicated for cross-sections.

Pôdorys strechy - nový stav

This section shows the proposed new roof layout. Key features include:

- Dimensions:** New overall width 12300mm and depth 16250mm.
- Structural Changes:** Similar to the old state, it indicates the removal of ridge tiles ('demontáž lemoviek') and the installation of new roof elements.
- Ventilation Points:** Two circular symbols labeled 'vpust' (inlet) are shown, indicating new or relocated ventilation points.
- Elevations:** Height levels are marked at +6,900m and +6,650m.
- Section Line:** Section line B-B is indicated.
