

Technical drawing of a rectangular frame assembly. The drawing shows a cross-section of the frame, which is composed of two main parts: a base plate (labeled 1) and a side panel (labeled 2). The base plate is shown in a hatched pattern. The side panel is shown in a hatched pattern with a diagonal line. The frame is mounted on a base (labeled 3) which is also hatched. The drawing includes the following dimensions and labels:

- H**: Total height of the frame assembly.
- 1700**: Height of the side panel.
- 600**: Width of the base plate.
- 50**: Thickness of the side panel.
- 160**: Radius of the rounded corner of the side panel.
- A**: Dimension indicating the distance from the top edge of the side panel to the top edge of the base plate.
- B**: Dimension indicating the distance from the top edge of the side panel to the top edge of the base plate, measured along the side panel's profile.
- 1**: Label for the base plate.
- 2**: Label for the side panel.
- 3**: Label for the mounting base.

-
- Technical drawing of a rectangular tank with a hemispherical bottom. The drawing shows the tank's dimensions: overall width 3600, overall height 2600, and bottom radius 1300. A hemispherical bottom is centered 800 from the left wall. A nozzle is located on the left wall, 160 from the bottom and 111 from the centerline. The nozzle diameter is 600. The drawing includes a hatched area for the nozzle and a dashed line for the centerline.
